

## Car Wash Instructions

Car wash access is available to property owners of Cordillera's Divide, Ranch, Summit, and Territories neighborhoods who have completed an online Car Wash training program and completed all required forms prior to using the Car Wash.

Complete the required training and forms at [www.CordilleraLiving.com/Car-Wash-Training](http://www.CordilleraLiving.com/Car-Wash-Training).

- Homeowner transponder is required for car wash gate entry.
- Cordillera ID with linked Car Wash access is required for car wash side door access.  
***After completing the car wash training process and submitting required forms, car wash access will be added to your transponder and ID within 72 hours.***
- Pull your car up to the front of the car wash bay.
- Turn the timer clockwise to turn on the car wash bay lights.
- Open the garage door using the switch located in the corner by the door.
- Press the OPEN button once to open the garage door.
- Drive your car into the center of the wash bay. CLOSE the door behind you.
- Use the Hotsy controller and red spray wand located on the far side of bay.
- Turn ON the LEFT pump switch. Turn ON the MIDDLE burner switch.
  - Note: The burner is optional and is NOT advised if the windshield is very cold.
- Do NOT turn on the detergent switch. The system contains no detergent.
- Rinse car with the wand. Keep wand 12 to 18 inches away from car to avoid damage.  
***Cordillera Metro District is not responsible for damage.***
- A bucket of soapy water and a brush are provided for dirt and mud removal.
- Use wand to rinse soapy water, dirt, and mud off car.
- Use mat clips for washing your car mats.
- Wash dirt down the floor drain underneath your vehicle before leaving the car wash.
- Turn OFF the Hotsy switches when finished rinsing.
- An air hose is provided for filling up tires if needed.
- Press the OPEN button to open the garage door before backing out of the car wash.
- Push the CLOSE button once to close the garage door after driving your vehicle out of the car wash.
