Why I am interested in serving on the CPOA Board

As a dedicated and proactive member of our Cordillera community, I am excited to express my interest in serving on the CPOA Board. My wife, Mary and I as well as our four children enjoy being here year round. I would like to serve on the CPOA Board for the following reasons:

1. Commitment to the community. I care about Cordillera. Having lived in this community for 12 years, I have developed an appreciation for our neighborhood values and dynamics. I am committed to fostering a sense of unity among our residents. My wife and I raised 4 children in Cedar Rapids, Iowa, where we lived for over 30 years. We were both very active in the community, public school systems, and the Boy Scouts.
2. Relevant experience and skills. My administrative skills will be useful to the board. My professional background is in medicine and the development of medical groups. I assimilated five Otolaryngologists into one group practice, and also I helped create a successful multispecialty surgical group of 60 providers in eastern Iowa. In 2013 we opened a 250,000 square foot medical mall (a

hospital without beds). Our community had two hospitals. I was chief of surgery at one hospital and chief of staff at the other hospital. I participated on numerous boards including the Mercy Medical Center Hospital Board, the Physicians Clinic of Iowa Board, and the Orchestra Iowa Board. Currently I serve the community as an alternate on the CPOA Design Review Board.

3. Effective communication and collaboration. I like people and work well with others. A key aspect of being a successful board member is the ability to communicate effectively and work collaboratively with others. I have strong interpersonal skills, which allow me to listen to diverse perspectives, mediate conflicts, and build consensus.
4. Vision and goals. I want to make a positive impact on the community. If elected to the Board, my vision is to enhance our community's quality of life by focusing on three areas: maintaining and improving amenities, fostering community engagement, and ensuring financial stability. I also support continuing a strong positive working relationship between the CPOA and the CMD.

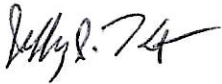

Biographical Information

I received a Bachelor of Science degree from the University of Illinois, Urbana, in 1977 and a Doctor of Medicine degree from the University of Illinois in 1981. I completed my residency in Otolaryngology/ Head and Neck Surgery at the Illinois Eye and Ear Infirmary in 1986. I initially worked at the Carle Clinic Urbana, IL in 1986 for three years then moved to Cedar Rapids, Iowa in 1989. I was elected as a Fellow to the American College of Surgeons in 1989.

Conclusion

I believe that my dedication to our community, my administrative and communication skills, my commitment to transparency, and my long term vision for Cordillera make me a strong candidate for the CPOA Board. I would be honored to serve on the Board and have an opportunity to contribute to the future success of Cordillera and the CPOA. Thank you for considering my candidacy.

Sincerely,
